The Art of Energy®

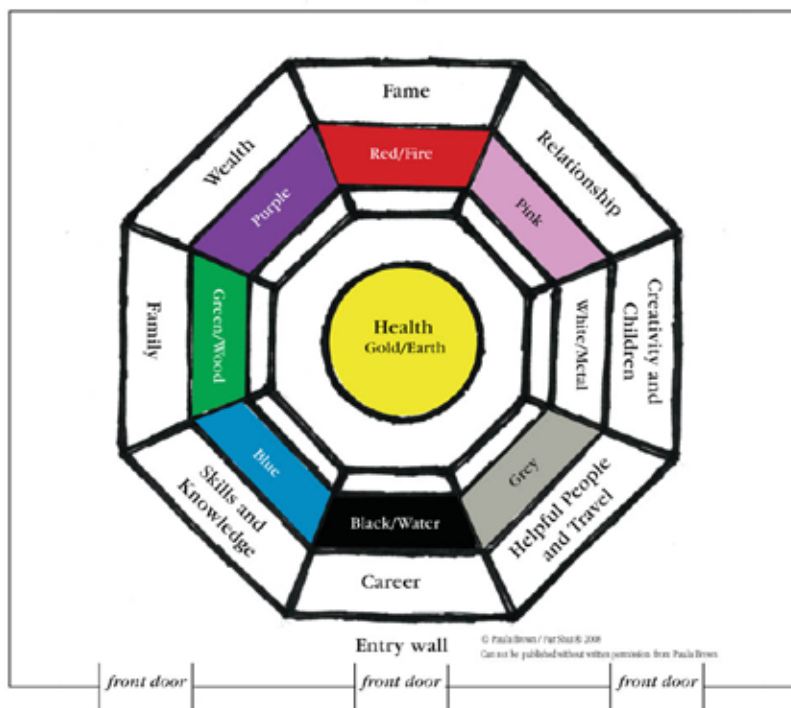

Paula Brown is the artist and Feng Shui practitioner who creates and offers art that holds the intent for resonating with and augmenting the positive energies already found in your home and environment. She is an energetic advisor that loves to activate and balance some magical chi, the energy of your positive desires, to bring joy and harmony to your life.

According to the ancient healing art of Feng Shui / Black Hat School, energy is everywhere, and in your home, living or work space, it holds auspicious power in each of 9 life spaces or guas. These guas are defined by location, color, shapes, numbers and in 5 there are defining elements.

Color is key to each of these life spaces. Bringing beauty and balance with color can improve each of these 9 life spaces of Career / Life Path, Travel & Helpful People, Creativity & Children, Love / Relationship, Fame / Reputation, Wealth / Abundance, Community & Family, Skills & Knowledge, and Health / Balance.

Paula’s art canvas “sketches” reinforce positive energies by their color, meaning, and intent or “cure” for each of these guas! With the purchase and use of her art, her intent is for you to enjoy smoother movement of energy or “chi” in each of your life spaces adding power to your healing intent for any aspect of your life.

The Bagua

To find the life space represented by your piece of “Energy Art” and to place the beautiful energy of the canvas , your intent, or “cure” in the proper life space or qua inside your home or space, use this octagonal Bagua “map” as your guide.

With the map’s Career always at the main door, visualize this map covering your whole home to find the desired gua to work your energy magic. Using your sincere intent for success by placing this piece of art in the proper gua color (Love, Wealth, etc.), you activate your home’s existing living energy to help you in your chosen journey.

In Gratitude & Feng Shui blessings!

About the Artist:

Paula Brown lives in LA and has a passion for all things “energetic”. All that she creates is from the heart”. She is a black hat Feng Shui practitioner, Energetic Advisor / Dowser, Branding Creative Director / Designer, Animal Communicator, Flower Essence Practitioner (Animals), and author of “Fur Shui.
